GREETINGS

To our host of customers, old and new, we extend our thanks for last season's business which was the best in our history. We regret that limited stocks made it impossible to fill some of your orders. As stocks of many varieties are still limited we suggest that you place your orders promptly upon receipt of this catalog.

In reviewing our list of Distinctive Glads which we present for your consideration, you will note that a number of newer varieties have been added to the list and that some of the older ones are no longer included. This is due to our effort to make available those which we consider "the best of the old and the new." The passing of old friends is usually due to their being replaced by better varieties in the same color class. However, their passing is sometimes due to poor habits of propagation or to the fact that some weakness has developed in the variety.

LOCATION

All mail should be sent to New Cumberland, Pa. However, we are growing our bulbs on our farm located on Route 441 about two miles south of Middletown, Pa. Those wishing to visit our fields during the blooming season should call at the farm. The greatest number of different varieties will probably be in bloom during the period from August 15 to September 1.

JOIN A GLADIOLUS SOCIETY

Persons interested in the growing of gladiolus should join a society. The benefits and information received are worth much more than the dues. Some of the societies issue regular publications such as bulletins and yearbooks. Others conduct trial gardens and issue reports on the varieties grown. They all conduct shows.

GLADIOLUS SHOWS

Plan your vacation so as to permit you to attend and exhibit at as many gladiolus shows as possible. Most show dates have not been announced as this catalog is going to press. However, **The International Show** will be held Tuesday, August 19 and Wednesday, August 20 at Binghamton, N. Y. This will be the largest gladiolus show ever held.

CLASSIFICATION

With our description of each variety, we have included a number in parenthesis which designates the official classification of the variety for show purposes. In accordance with the plans used by the New England Gladiolus Society and the North American Gladiolus Council, the first digit of the number indicates the size classification and the second and third digits indicate the color classification.

VARIETIES

In our opinion, each variety listed in our catalog has merit and is worthy of your consideration. As to whether you will like a particular variety may depend on your personal preferences and the purpose for which you wish to use the flowers. Remember that the price is not an indication of the quality of the variety. Newer kinds must of necessity be higher in price because of scarcity of stock. We suggest that beginners start with tried and true varieties in order to avoid disappointment. Growers of more experience and fanciers will want to try the newer ones.

OUR GUARANTEE

All our stock is guaranteed to be healthy, vigorous, free from thrips, and true to name. **You must be satisfied.** If any stock is unsatisfactory, tell us and we will try to satisfy you. If you like our bulbs and our service, tell your friends.

PLEASE READ CAREFULLY

All quotations are subject to previous sale. We urge that you place your orders early so that you may not be disappointed. Each year we are unable to fill late orders for a number of varieties. **No orders for bulblets will be accepted after April 1** as we expect to be planting bulblet stock by that time. **We do not care to accept orders for bulbs after May 1, except for mixtures**, as many varieties will be planted by that time. Orders are segregated as soon as possible after being received but will not be shipped until after danger of freezing is past, unless you request otherwise. However, bulbs can be sent any time desired. No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to make a substitution in size or variety. Cultural directions will be included with all orders.

Orders from the retail list amounting to \$2.00 or more will be prepaid to points in the United States. We prefer not to receive orders amounting to less than \$2.00. If such orders are sent, please include a fee of 15 cents to cover the cost of postage and packing. Prices as indicated in the quantity list are not prepaid, but are F. O. B. New Cumberland, Pennsylvania. If you wish to order part from the retail list and part from the quantity list, we will send the order transportation collect and will include extras or overcounts to make up for the transportation on the retail items. A discount of 5% will be allowed on cash orders from the retail list amounting to from \$3.00 to \$10.00. On such orders amounting to more than \$10.00 a discount of 10% will be allowed. These discounts do not apply to mixtures, to items marked "no discount" nor to orders from the quantity price list. We also include worthwhile extras with retail orders. The value of the extras will be in proportion to the size of the order. Suggest varieties desired as extras. If we have sufficient stock we will comply with your request. However, new introductions and varieties marked "no discount" cannot be used as extras.

Where a variety is listed at 2 for 20 cents or 2 for 25 cents, please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the price of ten, but no single item will be accepted for less than 20 cents except when so quoted. Where no 10 price is indicated, it may be found by multiplying the price of a single bulb by 8.

Where bulblets are sold by the packet, 25 to 50 or more will be included in each packet. We will give good value.

Do not ask for special quotations unless you have a large order. Our prices are very low for the high quality bulbs offered. However, we are glad to furnish special quotations to jobbers, growers, and others purchasing in large quantities.

All bulbs listed as large size are 1¼ inches and up, mostly 1½ inches and up, in diameter. Medium size bulbs are ¾ to 1¼ inches in diameter. Small bulbs are ¼ to ¾ inches in diameter. For the finest blooms, large bulbs are best. Medium size bulbs of most varieties will give nice cut flowers, but the spikes are not as long as from large bulbs. Although small bulbs of many varieties will bloom, others will not. The blooms from small bulbs will be noticeably smaller in size. Bulblets seldom bloom and are often difficult or impossible to germinate. We do not recommend them except to experienced growers.

1947 INTRODUCTIONS

OCTOBER SUNSHINE (Quackenbush). (Picardy x Yellow Perfection). Formerly Seedling No. 41135. Because of its beauty, its high color value, its ability to open in water when cut in bud, its growing habits and its ease of propagation, it will be of special interest to cut flower growers and to back-yard gardeners. The color blends from orange to a golden yellow throat. It opens 5 to 6 recurved florets on an 18 bud spike with about 8 buds showing color. Height of plant about 52 inches. The spike is always straight and the florets are well spaced and well attached to the stem. However, the lower floret sometimes is poorly faced. The florists who have seen this variety are very enthusiastic regarding it. Classification 420.

Price—Any size bulb, \$3.00. One bulb and 10 bulblets, \$5.00. Bulblets sold only in combination with bulbs. (No discount.)

From Byron R. Kadel.

WAR PAINT (Kadel). (Red Penny x Regent). This beautiful dark scarlet self opens up to 10 large florets on a 22 bud spike. Height 54 inches, flower head 27 inches, spike always straight. Does not burn in the sun. An outstanding variety for the show table and the home garden. It is also promising as a commercial. Eight entries in shows have won eight firsts, one special award and an American Home Achievement Medal. Strong healthy plants like Red Penny, and like that variety, a good germinator. Blooms in 85 days. Classification 436.

Price—Any size bulb, \$5.00. One bulb and 10 bulblets, \$9.00. Bulblets sold only in combination with bulbs. (No discount.)

From Luther P. Benedict.

ALICE AYER (Benedict). This pure white grows to a height of 63 inches. It opens up to 7 five-inch recurved florets on a 22 bud spike. Flower head 27 inches, florets firmly attached, spike always straight. Vigorous grower, bulblet production and germination very good. Award of Merit, N. E. G. S.; Commendation, Massachusetts Horticultural Society. Classification 400.

Price—Large bulbs only, \$3.00. No bulblets released. (No discount.)

From Chester Kuhn.

WHITE MAGIC (Kuhn). (Snow Princess x Mary Elizabeth). A fine, crisp, heavily ruffled, pure white. Height 50 to 54 inches, opens 6 to 7 large florets with 6 to 7 more showing color. Heavy texture, formal placement. Midseason. Winner of Award of Merit and best seedling at S. E. M. G. S. and M. G. S. shows. The high-scoring seedling at the Michigan State College Trial Grounds this past summer. Classification 500.

Price—Large \$5.00, Medium \$3.50, Small \$2.50. Bulblets \$.50 each, 10 for \$4.00. (No discount.)

FIREBIRD (Kuhn). (Cardinal x Snow Princess). Clear, brilliant scarlet which opens 6 to 8 on a 20 to 24 bud spike, with 6 to 8 buds showing color. A fine lively color and a strong, straight grower. Height 54 inches. Shown at Boston and at the Michigan shows in 1946. Because of its healthy growth and strong propagation it is being introduced in quantity and at a price attractive to cut flower growers. Early. Classification 436.

Price—Large \$1.00, Medium \$.75, Small \$.50. Bulblets 10 for \$.75.

Special—10 Large, 10 Medium, 10 Small, 250 Bulblets \$30.00. (No discount.)

CONCORD (Kuhn). (Picardy x Blue Beauty). A rich, glowing royal purple with deeper self throat. Height 56 inches, opens 6 on an 18 bud spike with 6 to 7 additional showing color. Strong, straight grower. Excellent propagator. Early. Recommended to cut flower growers. Available in quantity. Classification 470.

Price—Large \$.50, Medium \$.35, Small \$.25. Bulblets 10 for \$.40.

Special—10 Large, 10 Medium, 10 Small, 250 Bulblets \$15.00. (No discount.)

SILVERSIDES (Kuhn). [Nadia x (Janet x Arabella)]. A truly beautiful small decorative. Bright, deep rose with silvery reflexes. Height 45 inches, opens 5 to 6 on an 18 bud spike with 5 additional showing color. Slender, graceful spike. Early. Award of Merit at Boston and M. G. S. shows in 1946. Classification 262.

Price—Large \$.75, Medium \$.75, Small \$.40. Bulblets 3 for \$.25, 10 for \$.60. (No discount.)
